Call for Special Session Proposals

The 32nd edition of GLSVLSI will be held as in-person conference. We would also like to invite proposals for special sessions in GLSVLSI 2022. Proposals that address any topics of interest to the GLSVLSI community, and take the form of any format (e.g., panels, hot-topic sessions, embedded tutorials, debates) are all welcome. Special sessions typically run for 1.5-2 hours. Each speaker at a special session has the opportunity to include a paper of up to 6 pages, but minimally a 1-page extended abstract is required in the proceedings. All papers/extended abstracts will be reviewed before being published in the official proceedings of the conference. Detailed paper/extended abstract submission instructions will be provided upon acceptance of the proposal.

Special Session Format

Special sessions can take the form of: (1) panels discussing visionary and/or controversial issues; (2) hot-topic sessions dealing with the introduction and discussion of emerging problems; or (3) embedded tutorials addressing recent technical trends that are of interest to the conference participants.

Proposal Submission Instructions

Please follow these guidelines while preparing the proposal:

- Prepare a single PDF not exceeding three pages and submit the file to the “special session track”
- Describe the session topic, the format and intended audience
- Include a list of speakers with their biographical sketch and presentation titles/abstracts

Please submit your special session proposal in the form of a single PDF file to the “special session track” on the EasyChair submission site. To be eligible for review, your proposal must be submitted by February 28, 2022. Notification of acceptance/rejection will be sent by March 31, 2022.

Please contact **Selcuk Kose** (selcuk.kose@rochester.edu) if you have any questions or need additional information.

Important Dates

Proposal Submission Deadline: February 28, 2022

Notification of Acceptance/Rejection: March 31, 2022
